# **RSA Robotic Systems and Applications**

## **Aims and Scope**

RSA publishes high-quality articles concerned with fundamental and applied aspects in robotics. The Journal's scope encompasses original contributions based on analytical, computational, and experimental methods.

The list of principal topics:

- General issues in robotics
- Path planning
- Sensing and sensor fusion
- Robot application issues – equipment, computer vision, machine learning
- Robot integration into the greater system
- Common robot operation-lines
- Flocks and arrays
- Robot-human interaction
- Mathematical methods in robotics
- Microrobotics
- Robots in biomechanics
- Military and rescue robotics

**All published papers are peer reviewed and crosschecked by plagiarism detection tools.**

More information is available online <https://www.jvejournals.com>

**The journal material is referred:**

**GOOGLE SCHOLAR:** <https://scholar.google.com>

**CROSSREF:** <https://www.crossref.org>

**Internet:** <https://www.jvejournals.com>
